

GALIS KETTLE

Performance at the service of seafood professionals

Designed to meet the requirements of shellfish farming and seafood processing professionals, the galis kettle combines robustness, efficiency and ease of use.

ROBUST & DURABLE

Entirely made of 316L stainless steel for maximum corrosion resistance.

PRECISE CONTROL

Electronic thermostat with digital display for accurate temperature control.

OPTIMAL PERFORMANCE

Immersion heating adjustable from 0 to 5 seconds for consistent results.

EASY MAINTENANCE

Large drain valve for quick and easy evacuation of wastewater and residues.

TANK & BURNER

in 316L stainless steel thickness 3 mm

TIG WELDING

Tank and burner welded with TIG for a perfect seal and maximum strength

CONTROL

Electronic thermostat with digital display for precise control

EASY DRAINING

Large drain valve for quick and easy cleaning

TECHNICAL SPECIFICATIONS
